

### **Introduction:**

Under the directive (2/RBA/357/2015) issued by the Central Bank of Kuwait (CBK) dated 25 October 2015, Islamic Banks licensed in the State of Kuwait adopted the Net Stable Funding Ratio (NSFR) as part of CBK's continuous implementation of Basel III reforms.

The objective of the NSFR is to promote resilience of the bank's liquidity risk profiles. The NSFR will require banks to maintain a stable funding profile in relation to the composition of their assets and off-balance sheet activities.

A sustainable funding structure is intended to reduce the likelihood that disruptions to a bank's regular sources of funding will erode its liquidity position in a way that would increase the risk of its failure and potentially lead to broader systemic stress. The ratio's numerator, Available Stable Funding (ASF), is defined as the portion of capital and liabilities expected to be reliable over specific time horizons whereas the denominator, Required Stable Funding (RSF), is defined as the portion of assets and off-balance sheet exposures expected to be funded on an ongoing basis over similar time horizons.

The NSFR limits overreliance on short-term wholesale funding, encourages better assessment of funding risk across all on- and off-balance sheet items, and promotes funding stability. It's two components, ASF and RSF, contrast durational and behavioral characteristics for available funding sources with liquidity, quality and tenor characteristics for required funding to properly assess the funding ratio.

Scope of reporting and monitoring occurs at both local and banking group level, KFH Kuwait and KFH Group respectively.

### **Results Analysis and Main Drivers**

KFH Group's total weighted value of Available Stable Funding (ASF) stood at roughly KD 16.985 billion while the total weighted value of Required Stable Funding (RSF) stood at roughly KD 13.988 billion as of the end of September 30, 2020. Furthermore, the NSFR for the stated period was 121.4 %.

The ASF portfolio is driven mainly by a robust capital base and substantial retail deposit base along with reliable wholesale funding. After applying relevant factors, the contribution of the capital base, retail & SMEs deposits and wholesale funding to the ASF portfolio stood at 13%, 64%, 18% respectively.

The RSF portfolio is driven mainly by financing various stakeholders including but not limited to financial institutions (FIs), non-financial corporate clients, retail and small business customers, sovereigns, central banks and PSEs.

KFH Group's High-Quality Liquid Assets (HQLA), detailed in the LCR disclosure<sup>1</sup>, requires minimal funding due to its highly-rated nature and liquidity thus after applying relevant factors it makes up merely 2.9% of the RSF portfolio whereas performing financing makes up 68.4% and other assets 21.6%.

Other assets (Sr. 29) not detailed in the NSFR Common Disclosure Template on the following page includes sukuk issued or guaranteed by banks and FIs, investments in real estate, uncategorized listed and unlisted investments, NPFs and all other assets. Much of the required funding after applying relevant factors is distributed between performing financing and all other assets categories, 68.4% & 21.6% respectively.
